SUMMARY

Computer Science (Data Science) undergraduate with a strong foundation in Java, Machine Learning, and Data Structures & Algorithms, and hands-on experience building full-stack software. Shipped production platforms adopted by 4,000+ users, including role-based access systems, automated data pipelines, and constraint-based scheduling engines. UiPath- and Salesforce-certified, with a track record of leading technical communities and winning 10+ coding competitions and hackathons.

EDUCATION

B.Tech in Computer Science and Engineering (Data Science)	2023 – 2027
Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal	CGPA: 9.13

PROJECTS

AdvtiYans — Student Performance & Placement Tracker | Tech Stack: React, TypeScript, Node.js, PostgreSQL, AWS Cognito | [GitHub](#) | [Live](#)

- Built a full-stack academic platform used by 4,000+ students and 100+ faculty with multi-role access control.
- Automated LeetCode and GitHub sync with a rolling cron strategy for large-scale daily data refresh.
- Developed HOD dashboards with live CGPA analytics, placement filters, and department-scoped reporting.

Time Table Generator (Opti Schedule) | Tech Stack: Next.js, React, TypeScript, Tailwind CSS, SQLite, Nodemailer | [GitHub](#) | [Live](#)

- Developed a constraint-based timetable scheduling system with conflict-free scheduling.
- Implemented rules such as no overlapping classes, faculty preferences, and balanced schedules.
- Used optimization and constraint satisfaction techniques to generate efficient timetables.

INTERNSHIPS

Data Visualization Intern Infosys Springboard 7.0	Jul 2026 – Sep 2026
--	----------------------------

- Worked with technologies including Java and Spring Boot to build the Digital Subsidy System, gaining hands-on backend development experience on a real-world project.

TECHNICAL SKILLS

Languages: Python, Java, C

Frontend: HTML, CSS, JS, React, TypeScript

Machine Learning: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Plotly

Backend: Flask, Node.js

Databases: PostgreSQL

Cloud: AWS

Tools and Platforms: Git, GitHub, Jupyter Notebook, VS Code, Google Colab

CERTIFICATIONS

- UiPath Automation Developer Associate Training
- Salesforce Agentforce Specialist

ACHIEVEMENTS

- Club Lead, Yuga Spark Hackathon Club — Organized and managed college-level hackathons.
- Community Lead, SOCH (Students Open Conversation Hub).
- Won 2 24-hour hackathons.
- Winner of 10+ coding competitions.
- Selected for the final round in the IIC Regional Meet.
- National-level Abacus Championship winner.
